NOTE–Contn. Sheet

Office of the Senior Surgeon in Mysore,

Bangalore, dated 21st April 1925.

No. G.C.316

LEG. & REV. SECTT. Dr. 22 APR. 1925 G. D. SECTION.

GENERAL & REVENUE SECRETARIAT 6682 23 APR. 1925

From

The Senior Surgeon with the Government of
His Highness the Maharaja of Mysore, Bangalore.

To

The Secretary to the Government of
His Highness the Maharaja of Mysore,
Local and Legislative Departments, Bangalore.

Sir,

I have the honour to state that in Government Order No. 4322-3, Med. 27-15-7, dated 15th December 1915, the Government were pleased to sanction, among other matters, the proposal of the Senior Surgeon to post officers by rotation for a period of two years each as Resident Medical Officers of the Victoria and Krishnarajendra Hospitals and that the period was increased to three years in Government Order No. 5830-1 Med. 95-16-1, dated 9th March 1917.

Although the order appears to have been passed after much deliberation, yet past experience shows that, with the exception of Mr. T. Balakrishna Mudaliar, it could never be strictly adhered to, but officers posted as Resident Medical Officers had to be disturbed prematurely and sent away for other duties according to the exigencies of the service. The late Mr. S.G. Asirvatham who became Resident Medical Officer in March 1916 and to whom the order was specifically applied by Government Order No. 6709-10- Med. 95-16-3, dated 20th April 1917, was disturbed in July 1918 when he had not yet put in the three years' period. Subsequently, myself, Mr. D.S. Puttanna, and Mr. B. Nanjappa were posted as Resident Medical Officers but none could be kept there for the full term of three years, as shown in the margin.

Mr. Md. Usmon July 1918 -to November 1918
Mr. D.S.Puttanna Nov. 1919 to April 1921
Mr. B.Nanjappa April 21 to April 1923

Thus the exigencies of the service have, in a way, proved that it is rarely possible to adhere to the three years' period

b

In my humble opinion, two years' service as Resident Medical Officer of either of the two institutions is quite enough for improving the efficiency of an officer, and his retention for any longer period appears to me to be fair neither to him nor to the institution. It is not unlikely that the officer will grow indifferent or other undesirable results may follow.

I am aware that a reduction of the period had once before been proposed by this office in letter No. G. C. 77, dated 24th August 1922, and it did not commend itself to Government. But then it was proposed to reduce it to 1½ years, which was rather too short and otherwise inconvenient. More-over, a careful perusal of your office reply No.L. 3048, dated 17th October 1922, leaves an impression that the reason why the proposal fell through then is contained in para. 2 of the letter. If the question had been personally discussed the period could have been fixed at a more reasonable figure (2 years) than the too short one of 1½ years proposed.

With a view to ensure that every Assistant Surgeon showing any interest in his professional work gets a chance to serve as Resident Medical Officer of either of the two premier institutions, I beg, in conclusion. that Government may be pleased to fix the period of Resident Medical Officership of these hospitals to two years, as had been originally proposed by Dr. Armugam and sanctioned by Government in the Government Order of 15th December 1915, first referred to above. I request the favour of early orders.

I have the honour to be,

S i r,

Your most obedient servant,

Senior Surgeon.
